Farmer Bean

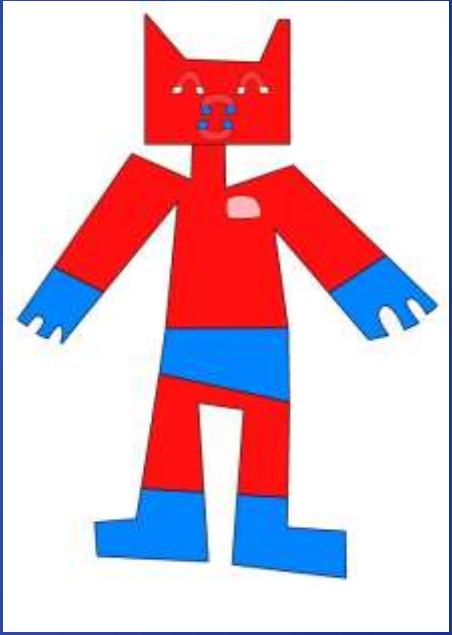

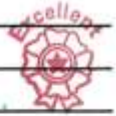

How Farmer Bean looks

Farmer Bean is SKINNY  
as a Pencil Bean is tall  
as a tree Bean is small as a pig.

How Farmer Bean acts and talks  
~~He is~~ He is FROG-LIKE NOT  
MEAN that like a horse and  
CREEPY and needs Beans  
or tea because he has the  
worst FROGS in town.

Great sticking to it today  
just like Magra. Well done.

WALT: learn and understand multiples of a number.

Miss Ruchat marked a child's work yesterday. They got some wrong - can you correct them? Be careful - Miss Ruchat might have marked them incorrectly! Can you explain where the child went wrong in the first place?

- $4.3 \times 100 = 43$  False
- $274 \div 1000 = 0.0274$  False
- $586 \times 1000 = 586000$
- $0.261 \times 100 = 26.1$  False
- $75 \div 10 = 7.5$
- $0.726 \div 100 = 72.6$

$1.4.3 \times 100 = 430$

T	H	T	U
		4	3
4	3	0	

The child got the answer wrong because he multiplied by 10 not 100 so he got 43 not 430. ✓

$2.274 \div 1.000 =$

H	T	U
2	7	4
0	0	2
0	0	2
0	0	2

The child got it wrong because he multiplied by 10,000 not 1000 so he got 0.0274 not 0.274. ✓

$3.586 \times 1000 =$

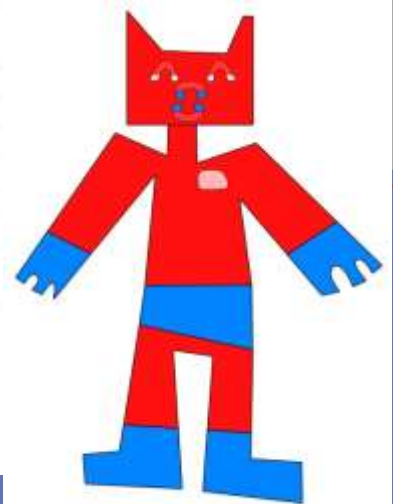

M	H	T	H	T	U
			5	8	6
			0	0	0

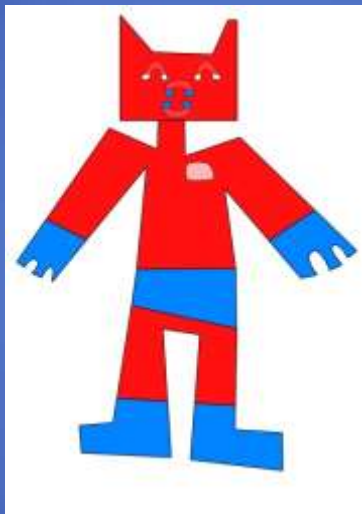

$4.0.261 \times 100 = 0.26.1$

T	H	T	U
		0	2
0	2	6	1

The child went wrong because he missed out the 0 at the beginning. Hang on - is that 0 holding a place? So is it needed? Check your explanation again!

✓ Well, you are really starting to develop your explanation skills.

Miss Frunchball, whose only friend is the chokey, ~~hold~~ <sup>hold</sup> everybody to come to assembly energetically.

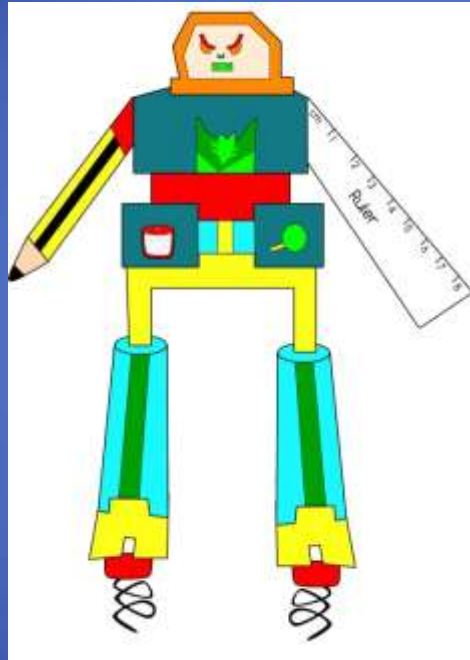

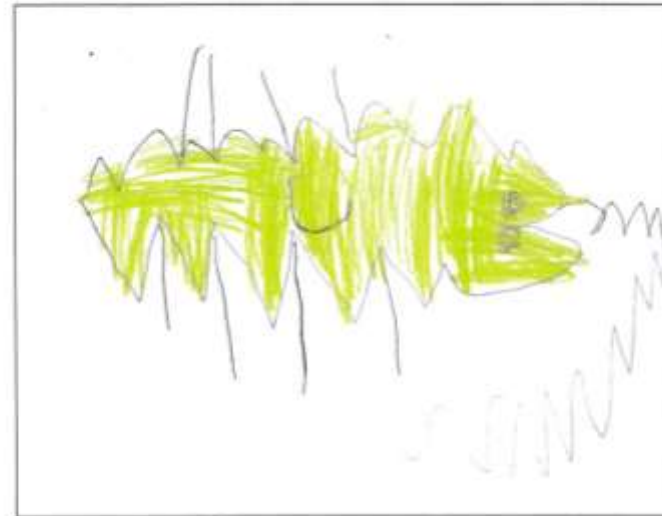

Miss Frunchball, who makes the school announcements, ~~force~~ forced a little boy to eat a whole chocolate cake

Miss ~~A~~ After Frunchball, who ~~is~~ <sup>'s</sup> hated <sup>by students</sup> sat down on her chair and there was a loud squeaky noise and she got all sticky.

Living things and their habitats

Wait & give reasons for classifying animals based on their similarities and differences.

# Zoo Classification

I found it easy but difficult to do and I understood it

You have been asked to classify the animals on the Zoo Animals List. The animals will be housed in enclosures near to each other. Start by deciding on two groups to use to split up the animals, then split each group into two more groups. Carry on until you have classified the individual animals, or cannot think of a way to split the group up any more. The first few boxes have been drawn for you. Add a title for each group to show your reasons for classifying the animals in this way.

Lion, poison dart frog, giraffe, chameleon, komodo dragon meerkat, chimpanzee, spectacled bear.

giant snail, lobster, Galapagos penguin, emu, Macaw, hissing cockroach, spectacled bear, octopus, meerkat, tarantula, chimpanzee.
